

Participants in the masterclass/workshop will take part in a variety of activities, including walking—both during guided tours and independently for research—across indoor and outdoor locations. Comfortable footwear is recommended, along with sun protection such as sunscreen, a hat, or light, protective clothing.

At the end of the session, participants will have the opportunity to voluntarily share and present their ideas. Please bring any equipment or devices you prefer for this purpose, such as a sketchbook, tablet, or laptop.
