

# Heidelberg Materials Granville Island Plant Tour

Join us for a unique opportunity to tour our ready mixed concrete plant on Granville Island the day before the 2026 RAIC Conference on Architecture!

- Learn about our integration into the local arts community.
- Experience the production of concrete.
- Work with us to consider more sustainable mixtures.
- Discover how our water-based location receives aggregates for efficient transport.
- Discuss **evoZero®** cement, soon to be available from the first full-scale cement plant with Carbon Capture and Storage (CCS) being developed by Heidelberg Materials in Edmonton, Canada. We will share our plan to employ deep decarbonization for the cement and concrete industry.

## When:

**Monday, May 4 | 4 PM - 8 PM**

## Where:

### **The Sandbar Restaurant**

1535 Johnston St. Creekhous #102

**Making a material difference**

## Transportation

### Aquabus False Creek Ferry

You can easily take the Hornby Street Aquabus (a 15-minute walk from the RAIC Conference on Architecture) to a stop near our check-in point at The Sandbar Restaurant on Granville Island! Open from 7:00 AM until 9:00 PM, Aquabus vessels provide frequent, daily passenger ferry service to all major destinations in False Creek with stops every 15 minutes or less. You can pay for your Aquabus fare quickly and easily with your phone using the Token Transit service! Scan or click on the QR code to get started!

## Join us at the RAIC Conference

**May 5 - 8 at the Sheraton Vancouver Wall Centre**

We are proud sponsors of the 2026 RAIC Conference on Architecture, happening May 5-8 at the Sheraton Vancouver Wall Centre. Join us there as well to meet hundreds of architectural professionals gathered to innovate, collaborate, and exchange knowledge.
